Cable Glands

■ Brass or stainless steel (INOX)

Available with metric, PG (steel conduit) and NPT threads in the following sizes:

M 12x1,5 to M 110x1,5, PG7 to PG48, 3/8" NPT to 1" NPT

Suitable for the following applications:

- industry standard
- EMC
- cable glands for hazardous areas
- type of protection Ex e
- type of protection Ex d
- type of protection Ex tD

■ Plastic (PA)

Available with metric, PG and NPT threads in the following sizes:

M12x1,5 to M63x1,5, PG7 to PG48, 3/8" NPT to 1" NPT

Suitable for the following applications:

- industry standard
- Ex e type of protection

Besides, we offer customised solutions in many different materials and sizes.

EXIOS

Circular Connectors

■ Signal connectors:

in the sizes

- M16
- M23
- M27

■ Special connectors:

- M23 RJ45
- Profinet, for high-speed data applications
- TWINTUS, cost efficient connections for small drives

■ Power connectors:

in the sizes

- M16
- M23
- M40 size 1,5

All sizes are also available in the following versions:

- push-pull version, for fast and secure mounting without any screws
- stainless steel (INOX), for offshore, food and medical environments
- extrusion-coated, available with or without kink protection
- with direct hose connection
- with multi-hole insert
- with anti-kink spiral

CONNECTOR
4 SMALL DRIVES

TWINTUS

Industrial Housings

- **Steel / stainless steel (INOX)**

Available in different standard sizes.

Customised housing dimensions available even for small order quantities.

- **Aluminum**

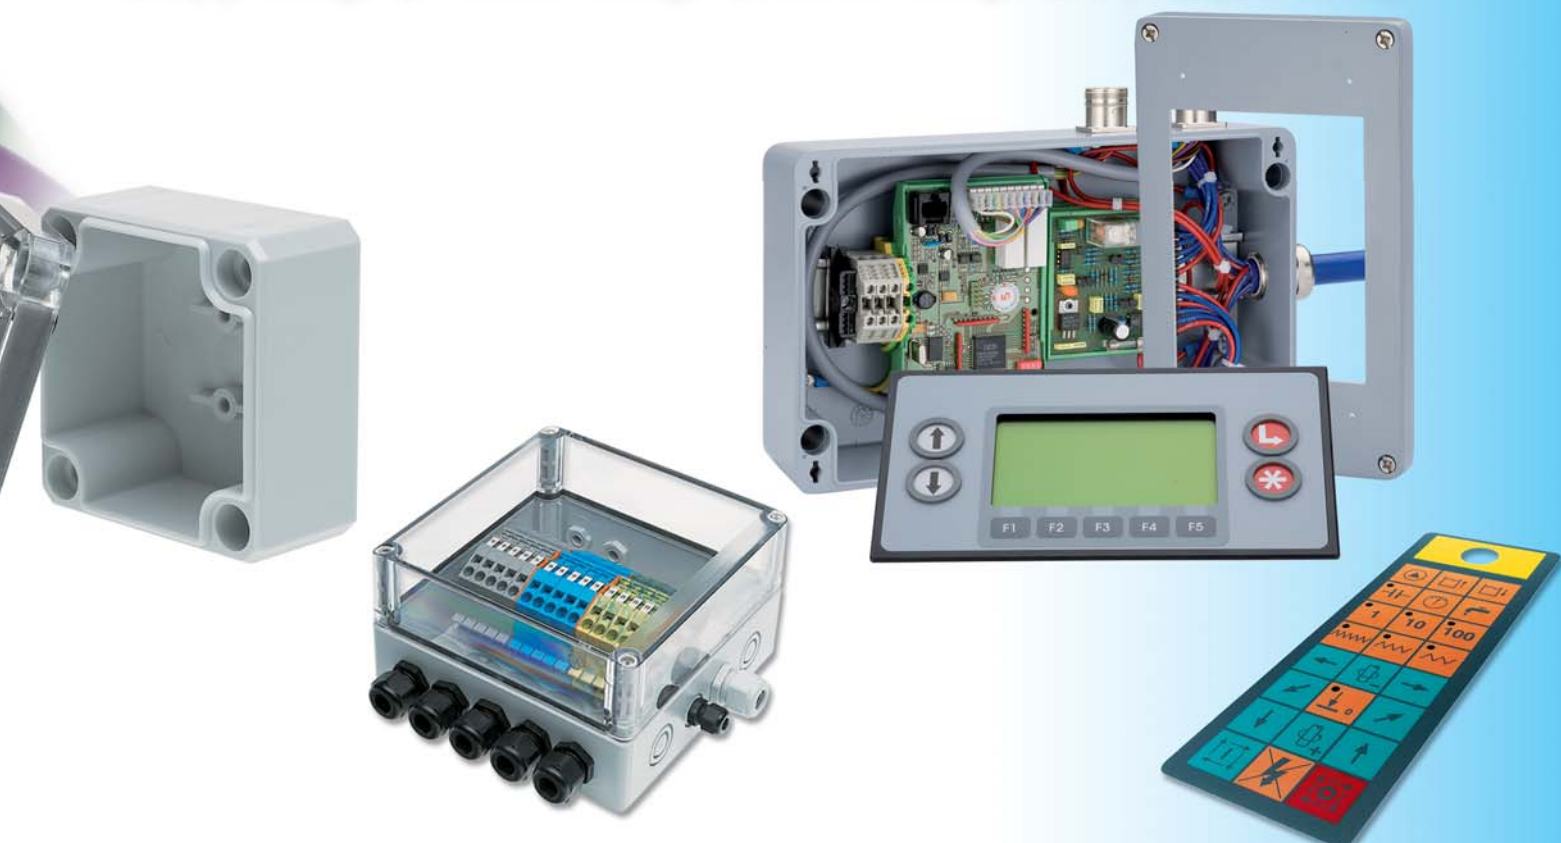

Available in different standard sizes. Also as EMC version and/or with customised housing dimensions.

- **Industry standard housings**

Besides, our range of products includes a host of standard enclosures made of ABS, polycarbonate and polyester.

We process and equip your housings at your option. Create your own solutions, selecting from a wide range of materials and sizes.

- Empty housings
- Processed housings
- Mounted housings
- Fully equipped housings
